Feedback System:

Collection of Feedback from Students, Teachers, Alumni, and Employers / Professionals:

The Arya College of Pharmacy collects feedback on curriculum aspects and courses from different stakeholders such as the students, alumni, Faculty, and Employers.

The Institution established IQAC to ensure and analyze academic excellence at student and faculty levels. The Periodical analysis is made by IQAC from the following: student performance, faculty performance in every semester, utilization of infrastructure, and requirements for quality enrichment.

Institute collects the feedback physically from viz. Students and teacher on Curriculum which is prescribed by the university, further college website invites all holders to provide feedback through online.

The college conducts an annual Alumni Meet, in which suggestions and feedback are received from Alumni students. Feedback from industrial management and professionals is obtained through the college web site's feedback blog. The provided feedback data is presented to the IQAC meeting for necessary implementation in the curriculum.

Alumni surveys are conducted during alumni interaction at the alumni association meeting held every year. Whenever any alumni visit the college, feedback is taken.

Feedback collected and analyzed:

The feedback collected from various stakeholders is used to analyze for a various aspect to identify the problem regarding the course curriculum and their data is used to rectify the root cause and further their suggestions are considered and placed before the IQAC for discussion and possible incorporation in the curriculum.

Syllabus review given by the concerned subject faculty at the end of the semester in respect to the implementation of the syllabus, mode of presentation, lecture material, suggested books, and updated information.

Feedback overview is an expositive survey done by every out-going batch about concerning syllabus designing, faculty sufficiency, campus placements, and infrastructure.

The IQAC is formed to assess three major aspects, viz., Faculty Performance, Students Support System and Evaluation.

Apart from this, management supports student involvement through seminars, webinars, and student innovations for the further development of the curriculum.

After collecting and assessing the feedback from the various stakeholders on curriculum aspects, the valuable suggestions if any, will take notice to the Academic council and further to the university curriculum review committee whenever they invite the suggestion from the affiliated colleges, to possible changes in the course structure for the next curriculum regulation.

The Arya College of Pharmacy follows a continuous review system of the curriculum. The functioning of various committees of the College strengthens the quality sustenance and enhancement measures to ensure the effective development of curricula. The college makes efforts to integrate socially relevant issues into the curriculum with the help of the different cells functioning in the college like Career Guidance Cell, Anti-Ragging Cell, SC/ST Cell, and NSS. The IQAC has been organizing Faculty Development Program every year to enhance the professional competency and teaching pedagogy of the faculty. The Curriculum is enriched through mini - projects/student conferences/symposiums and innovative clubs in the college.

Students are also introduced to pharmacist as a profession that requires not only technical skills but also an ethical orientation, and of the need for lifelong learning.

Student Feedback Methodology (2021-22) odd

The students are supposed to be the most important stakeholders of Higher Education systems. The interest and participation of students at all levels in both internal quality assurance and external quality assurance have to play a central role. Any Higher Education Institution needs to ensure that students have a voice at various decisions making processes, formulating learning and teaching practices and those views of students are to be considered as the primary evidence on which the quality of teaching and learning is evaluated. The student feedback approach is basically about institutional practices, processes and frameworks that take into account students concerns of the quality of the education they receive in each section, the report includes findings of the top tasks which candidates feel the most and least prepared in.

The main objectives of the feedback system are as follows

- To provide the platform to the students in identifying a greater role in the teaching learning process
- To help the faculty modification and improvement in the teaching methodology at the University
- To develop a communication channel between the management and students.
- To maintain the functioning of the University system in the field of teaching learning process, library, sports, administration, etc at its level best

Feedback has been taken from students and teachers play an important role in the progress of institution so that on the basis of feedback analysis the institution can make its own amendments for further resolution for the next session. For the session **2021-22(Odd) (Semester is delayed due to Covid-19)** the feedback from students has been taken online. In the department of pharmacy, the feedback was regarding their curriculum and teachers as well,

The feedback from students about curriculum has been distributed as follows:

- Hard
- Moderate
- Easy

The 5 major sections of the feedback survey are distributed as follows.

- Course objective were Clear
- The course Workload was Manageable
- Subject is Industrial Oriented
- The course enhanced my ability and skills
- The course provided mixture of explanation and practice.

After evaluation of feedback forms received from the students a graphical/statistical chart has been prepared. After observation the different scenario of students in the graphical analysis a feedback summary has been prepared semester wise which is as follows:

- Digital Library is available in college for students. Student can sit and do their research work over there. Library is open after college till 5:30 so students can study in library after college too. This facility provided to students after the feedback they have given and asked to open library after college. We provide PDF Notes to students, they can save the notes and if required we provide the notes in hard copy too
- On the basis of feedback of the students the evaluation of the faculty is done through class before class (CBC) of the subjects in which student feel the subject is hard. To improve the quality of teacher, institute conducted the faculty development program. Send the faculty member for FDP (Faculty Development program) and workshop which is arranged by other colleges. Microphones are provided to the faculty to improve the audibility.
- Communication skill and soft skill trainings were arranged. Activities that will enhance the communication skills of the students were encouraged. Communication skills and soft skill trainings were given. Pre-placement trainings were given Mock interviews and tests were conducted

Teachers Feedback

Sub Criterion	Details	Remarks
1.4.1	Mechanism is in place to obtain structured feedback on curricula / syllabi from various stockholder Students, teacher's , alumni, employer and professionals	2022-23 (Odd & Even) A. Analysis of Feedback B. Feedback & Action Taken

Faculty Feedback Methodology (2022-23)

Teachers' feedback is an important parameter for quality improvement of the curriculum and the quality of the student of institution. Teacher's feedback on curriculum is received every year and evaluated by IQAC and necessary updating is carried in the curriculum design and syllabus for the betterment of the student community.

Feedback has been taken from teachers who play an important role in the progress of the Institution so that on the basis of feedback analysis the institution can make its own amendments for further resolution for the next session.

For the odd session (2021-2022) feedback from teachers has been taken on line mode. The feedback was taken regarding the curriculum.

The 6 major sections of the feedback survey are distributed as follows.

- Syllabus is suitable to the course and need based
- Aims and objectives of the syllabus are well defined and clear to teachers and students.
- Course content is followed by corresponding reference books/materials
- The course/syllabus has good balance between theory and Lab.
- The course/syllabus of this subject increased my knowledge and perspective in the subject area.
- The books prescribed/listed as reference materials are relevant, updated and appropriate

The objective of this feedback on curriculum is to assess whether it caters to the needs and requirements for student's employability, higher studies, or entrepreneurship. Since ours is an affiliated college, the curriculum is not designed by the college but this feedback helps the faculty to assess the course and this in turn can be put forth to the concerned authorities through the proper channels.

The responses given by each faculty is also tabulated.

Feedback from Faculty Members and action taken report Odd (2022-23)

S. No.	Feedback	Action Taken
01	Curriculum needs to be upgraded on par with the latest developments in the world and some changes were made after coming of semester system.	Curriculum for the first year we recommended PCI to Add "use of water in pharmaceutical" to the syllabus as it is not addressed.
02	Case study approach may be introduced. Group assignments and projects to be given	Case study assignments were given to the students. This helped them to acquire problem solving skills. Group assignments and projects were given to the students.
03	Faculty- student interaction may be enhanced. Smart class programmes may be made effective.	Faculties were asked to do the interaction with students more frequently and use the smart class rooms, and video conferencing etc made effective by use of ICT.
04	Current day industry training demand be considered in curriculum	Carrier guidance programs were given and counselling cell supported the development of softskills and communication ability
05	Entrepreneur and industrial ability of the students be encouraged	Innovation, Incubation, Entrepreneurship have been promoted in structured manner. Appropriate weight age has been given in revamped curriculum.
06	Research quality may be enhanced by collaborative research with other institutions in India and abroad.	MOUs/Agreements were signed with Industries, universities and reputed institutions to enrich research experience and facilitate staff and student exchange program.
07	Participation of the students in live projects, debates, workshops be appreciated appropriately	A methodology for student participation in debates and seminars was developed and applied.
