GREEN CAMPUS INITIATIVE:

The Green Campus and Environment Policy will develop exciting new co- curricular and extracurricular practices that encourage students and staff to take the lead in creating positive change. These initiatives call for a thorough review of all infrastructural, administrative functions from the standpoints of energy efficiency, sustainability and the environment.

Landscaping initiatives:

It is a vital part of the life of a campus, providing space for study, play, outdoor events, relaxation and aesthetic appreciation. Green campus landscapes also manage runoff, help recharge groundwater, and clean and cool the air on campus. The landscape serves as a visual representation of the campus community's commitment to sustainability. As campus landscapes are so visible and accessible, landscaping initiatives are a great way to build awareness around the environment.

There are more than 100 trees and more than 250 shrubs on campus. The landscape of trees and plants provide the 800+ students and staff with clean and cool air and is a soothing environment.

Landscaping with Trees and Plants

Ban on use of plastics

Sustaining cleanliness is the essential part of healthy living because it is hygiene and helps us to develop our personality by keeping us clean externally and internally. Arya college of pharmacy decided to go plastic free in the campus. There are no paper cups, plastic plates and spoons instead of that we are using steel glasses, plates and spoons inside the campus. We are using only steel. We had "Plastic freezone" to create awareness among the community as whole to stop the pollution and leave behind a green and pollution free place for our future generations
